## MORE THAN MEETS THE EYE

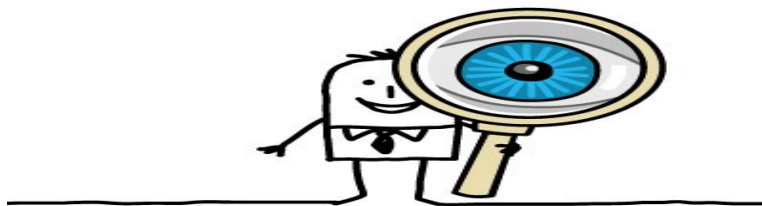

Looking is just the first step to seeing. Inspired by the book, “On Looking: Eleven Walks with Expert Eyes” by Alexandra Horowitz and WAM’s “Art of Seeing” Program, Curator of Education Ann Grimaldi leads visitors on an interactive tour about building visual awareness. Guided discussions in the galleries along with a simple sketching activity and small reception following the tour are included.

This event is free and open to all UNCG employees

Space is limited. Snacks are provided. Registration Required.

Please register at the UNCG Workshops & Events website:
